

Douglas County Rural Water District #6

2025 Annual Meeting

MARCH 18, 2025
7:30 P. M.
LECOMPTON COMMUNITY
BUILDING
333 ELMORE STREET
LECOMPTON, KS 66050

We had two main water line breaks this year. We recommend flushing your water line when you experience low or no water pressure. We issue a Boil Water Advisory as a precaution. This is different than a Boil Water Order. A Boil Water Order is confirmation that contamination is present through bacteriological analysis. Whereas, a Boil Water Advisory is a precautionary measure. Water samples are sent to KDHE who rescinds the BWA when test results come back negative for bacteria. KDHE notifies the media and we post it on our website.

AGENDA

- Budget
- Election
- Rates

We're excited to announce a new cloud based billing program coming **soon**. **MuniBilling** has a patron portal where you can manage your account and make secure online payments. The utility will send out important notifications through the software.

Consumer Confidence Report

The CCR is a snapshot of the quality of the water that RWD #6 provides every year. The report is available on our website at <https://rwd6.org/images/CCRCertOfDelivery.pdf> by email at rwdsix@gmail.com or you may request a copy at 785-318-0070

Spring: Never burn over meter lids when burning fields

Summer: Avoid mowing over lids

Winter: Secure lids on meter pits to avoid freezing

Register for the Waterscope app and monitor your usage.

<https://waterscope.us/>

1. VIN ID: Meter number
2. Acct ID: Service ID

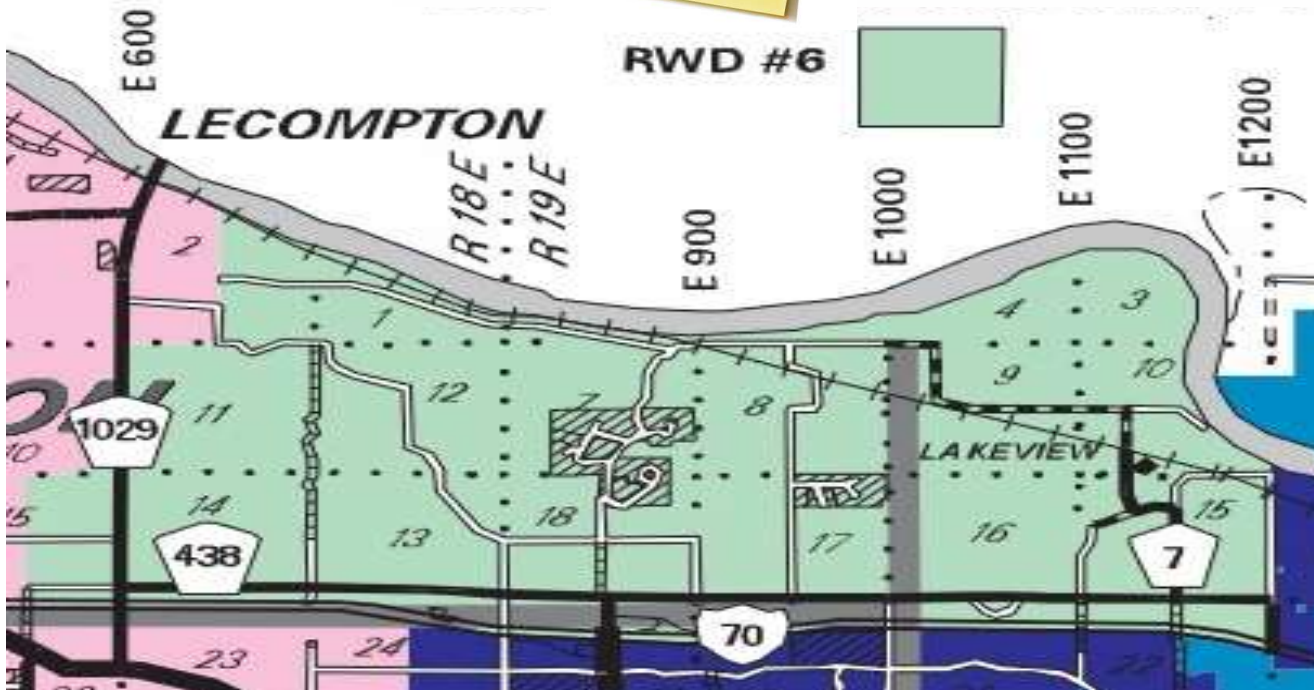

Please stay on the public right-of-way if you drop off your payment in the box. Please don't use private drives to turn around. Thank you for your consideration.
