

**Douglas County Rural Water District #6**  
**Township Water Use Policy**

Rural Water District #6 has undertaken a number of steps to ensure a dependable water supply for the customers of the District. In addition to providing water to our customers, the District provides water for use to Douglas County Lecompton Township.

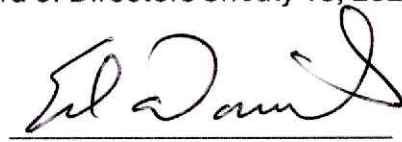

The District requires Lecompton Township to file a monthly written water usage report with Rural Water District #6. This report may be logged monthly or by usage in which the amount used is over 500 gallons of water. There is currently no charge for the use of water by Lecompton Township as it is considered a courtesy to the public for Township use. The Water District reserves the right to place a meter to monitor and charge for water use in the future if monthly written reports are not submitted.

This Policy will be reviewed and amended as necessary.

Adopted by Douglas County Rural Water District #6 Board of Directors on July 15, 2025.

Board Chairman  
Ed Daniels

Lecompton Township Trustee

Board Secretary/Treasurer  
David Ross
